# Underground Rainwater Tank

The answer to water storage in the urban environment. The Ozzi Kleen Underground Rainwater Tanks allow small urban blocks the convenience of rainwater storage with a space-saving unobtrusive tank.

The rotational moulded polyethylene construction is weight for weight 100 times stronger than concrete. Construction is seamless which ensures there is no risk of leaking or root intrusion.

The systems design ensures child prevention, in that it has a hard to access opening.

“Suncoast Waste Water Management was the first company in Australia to have the roto-moulded tank certified in accordance to the Australian standards for underground use.”

THINK Ozzi Kleen Underground Rainwater Tanks for a smart way to capture precious rainwater.

## RW5000 - Pool & Garden

An easy to use system designed for use around the home, garden and pool. A simple connection to the pressure pump means just turning the tap for that much needed extra water supply around your home.

**Features include:**

- > generous 5000 litre storage capacity
- > self priming submersible pump
- > access at top of tank for cleaning purposes
- > unique sediment cleaning feature
- > incorporated first flush diverter and leaf strainer
- > incorporated stormwater backflow prevention device
- > vector (insect) screen supplied with package
- > split system control unit
- > leaf and debris filter
- > no mains connection

### Optional Equipment

- > testable double check valve

## RW Deluxe - Home & Garden

This very smart system detects when the water level runs low or suffers a power outage - utilising an automatic mains diversion.

**Features include:**

- > generous 5000 litre storage capacity
- > self priming submersible pump
- > access at top of tank for cleaning purposes
- > unique sediment cleaning feature
- > incorporated first flush diverter and leaf screen
- > incorporated backflow prevention device
- > vector (insect) screen supplied with package
- > split system control unit
- > auto mains water diversion (switches to mains when tank reaches low volume or power outage)
- > leaf and debris filter

### Ozzi Kleen RW Underground Tank Features

- > child access prevention
- > 25 year tank warranty\*
- > seamless construction
- > food grade polyethylene won't taint your water
- > 1 rainwater inlet connection, and 1 service outlet connection
- > full installation instructions
